

### **Women on a Mission (WOAM) of BVBC Ongoing Mission Project**

One of the BVBC Women's Ministry groups, Women on a Mission, partners on a monthly basis with Holt International, a Christian organization founded over 50 years ago to assist in international adoption and child welfare programs that enable children to have families of their own. Women on a Mission is currently sponsoring a 15 year old boy in China through Holt International with a monthly contribution for the physical, medical and spiritual needs of this boy.

Kang, the boy WOAM sponsors, was scalded from a boiler accident when he was one year old. He tested HIV positive in 2006. Although he lives with his birth family, he often gets a fever and is treated in a hospital. Despite his health problems, he excels in learning and recently obtained the first position among 38 students in his class. It is hoped that with Holt's program help, Kang will be able to stay with his family permanently and continue his education.
